

Jerdacuttup Primary School

CRUNCH & SIP™ Guidelines

CRUNCH & SIP™ GUIDELINES

Crunch & Sip™ break is a set break for students to eat fruit or salad vegetables and drink water in the classroom. Jerdacuttup Primary School has introduced Crunch & Sip™ to support students to establish healthy eating habits whilst at school.

GOAL

All students and teachers at Jerdacuttup Primary School enjoy a Crunch & Sip™ break and eat fruit or vegetables and drink water in the classroom every day.

OBJECTIVES

The objectives of the Crunch & Sip™ break are to:

1. increase awareness of the importance of eating fruit or vegetables and drinking water every day.
2. enable students, teachers and staff to eat fruit or vegetables during an allocated Crunch & Sip™ break in the classroom.
3. encourage students, teachers and staff to drink water throughout the day in the classroom, during break times and at sports, excursions and camps.
4. encourage parents to provide students with fruit or vegetables every day.
5. develop strategies to help students who don't have regular access to fruit and vegetables.

IMPLEMENTING CRUNCH & SIP™

In the classroom

Teachers will:

- set a Crunch & Sip™ time each day in the morning or afternoon.
- encourage students daily to eat a piece of fruit or vegetable in the classroom during the designated Crunch & Sip™ break.
- encourage students to drink a bottle of water in the classroom throughout the day.

Students will:

- wash their hands prior to the Crunch & Sip™ break.
- bring fruit or vegetables to school each day to eat at the break.
- wash their water bottle and fill it with water daily, as directed by their teacher.

The school community will:

- find ways to provide fruit or vegetables for students who do not have access to them.

Disseminating information to parents and staff

The Jerdacuttup Primary School community will be made aware of Crunch & Sip™ by including details:

- in the school policy and procedures manual
- in the school parent handbook
- during student enrolment
- in reminders for parents and teachers at least four times a year. Either as talks, newsletters, social media posts, or brochures.

The Jerdacuttup Primary School incorporates nutrition into the appropriate curriculum key learning areas to raise students' awareness of the importance of good nutrition and adequate hydration during childhood and adolescence.

REVIEW

It is important to check the progress of Crunch & Sip™ in our school. We will:

- Review Crunch & Sip™ annually with recommendations for improvements made if necessary.
- Formally review the Crunch & Sip™ policy every two to three years. The revised document will be made available for parents and staff for comment. The final revised version will be presented to the School Council for endorsement.
- Regularly evaluate and update the nutrition curriculum component.

FRUIT OR VEGETABLES AND WATER GUIDELINES

Fruit

- All fresh fruit is permitted (e.g., whole fruits, chopped melon).
- Dried fruit is permitted, although fresh fruit or vegetables is the first choice because dried fruit contains high concentration of natural sugar and it tends to cling to teeth, increasing risk of tooth decay (e.g., sultanas).

Vegetables

- All fresh vegetables are permitted (e.g., celery, carrot sticks, broccoli bits, etc).

Water

- Only plain water is to be consumed in the classroom.

Nuts

Monitor for any student allergies.

CREATING A SUPPORTIVE ENVIRONMENT

The Jerdacuttup Primary School has created an environment to support the establishment of healthy eating habits for students, teachers, and staff. Specifically, eating more fruit and vegetables and increasing water intake, at the appropriate time. Normally this will be in the morning.

Physical Education and Sport

All students will be encouraged to drink water from a water bottle during physical education and sports classes.

Camps and Excursions

All students will be required to bring an individual water bottle for all camps and excursions.

Adult Role Modelling

Teachers, staff, and parents will model appropriate consumption of fruit, vegetables and water to reinforce the Crunch & Sip™ policy.

Occupational Safety and Health

- Water bottles are to be washed daily.
- Parents will be informed of the importance of rinsing fruit and vegetables.
- Students will be informed of the importance of hand washing before eating.
- Students will be required to wash their hands before eating.

School management

The school management will:

- Maintain a clean and safe water supply for students to refill water bottles.
- Have a plan in place to ensure access to fruit or vegetables for all students, including sharing of fruit or vegetables and seeking donations of fruit or vegetables from local orchards, retailers, or families.
